

HAPPY CHILDHOOD FOUNDATION

ISSUE 28 - Q1&Q2 2018

GREAT STRIDES AT THE LHRC

As the extension enters its final phase, the foundation is funding more and more children, with excellent progress made on all fronts!

119 children now receiving treatment

HCF has taken on an additional 22 children for their treatment since the start of the year, with 119 children now receiving regular therapy at the LHRC, including physiotherapy, occupational therapy, speech therapy and psychomotor therapy.

DONATE now for a child's treatment

They can hear again!

Two children have regained their hearing, thanks to our collaboration with the Father Andweg Institute for the Deaf. Four year-old A.A. who is one of our patients has an older sister who was failing in school despite all her best efforts. Her mother reached out to us for help, and it turned out the girl needed a hearing aid. We directed her to the FAID who provided it within weeks. It completely changed her life and saved her school year. It was also determined that her younger brother needed hearing aid as well, and the FAID made sure he would get it.

A weekend full of smiles

Thanks to a generous invitation by the Ordre de Malte Lebanon, 9 of our kids spent an incredible weekend of fun in Chabrouh. All the children suffer from cerebral palsy, leaving them with mild to severe physical and mental

their self-esteem, self-confidence, discover what they can accomplish, learn how to make friends and most of all feel loved and socially accepted.

It also had an incredible impact on their families. The mother of 12-year-old Jad sent us a very touching message: *"For the first time since Jad was born, I felt like I could take some time to myself and my other children without being worried. I was so at ease with where Jad was and how much fun he was having, that we could have our own fun without worry --that's something we don't get to live, ever. Thank you."*

Almost ready!

The inauguration of the new LHRC extension is all set for September 13! The rehabilitation space, the healing garden, pool therapy, and new equipment to cover a total area of 2,350 square meters.

We'd like to express a very special thanks to Talal and Haya Iliya, who generously asked their wedding guests to donate to the Happy Childhood Foundation. Their incredible generosity and that of all their guests is making a tremendous difference in the lives of HCF children.

THE HAPPY CHILDHOOD VILLAGE KICKS OFF IN TANZANIA!

conditions of children, and agreements of how to start the work, the village is now taking off!

Kicking off field work in all our programs

The Happy Childhood Village's work intends to begin at the Canaan Orphanage, where basic needs, education, and love are provided to 40 children, 14 of which are HIV positive. During the visit, a birthday party was celebrated for all the children, who never get a chance to have birthdays -- actually, they don't know when their birthdays are. Cake, juice, face-painting, footballs and storybooks!

Help an orphan today!

During the trip, the team met with the new archbishop of the Catholic Archdiocese, our local partner, as well as with the Regional Commissioner of the Arusha Region, who expressed full support to the Happy Childhood Village.

It was also decided that the work would begin on site with fencing and reforestation.
